

# About us

The main area of interests in our company is purchase and sales of plastics such as polystyrene, polypropylene, ABS, PC ABS, polymethyl for export and also their individual import. We cooperate with companies from Asia and East Europe.

We offer You high quality plastics. They can be both virgin granules and regrind or milling. The plastics we can offer You can be used to film production, packaging, injection and extrusion moulding technology.

We do what's our best to make You satisfied both in terms of quality and price.

**You are welcome. Feel free to contact Us any time.**
